

ERGOSTAR CANTILEVER SCHOOL CHAIR

SEAT SHELL COLOR BLUE, SEAT HEIGHT 46 CM

PRODUCT

The Ergostar cantilever chair is an elegant school chair. Its double-wall blown plastic seat shell provides a slight air cushion effect when seated and is available in a variety of fresh colors. The frame of the student chair is powder coated in white aluminum and is further stabilized by the foot caps attached to the rear of the frame and the cross bracing underneath the seat shell.

Thanks to its two grip holes integrated into the backrest, the school chair is practical and easy to transport. The surface of the Ergostar cantilever chair can be perfectly cleaned and is therefore very hygienic.

The school chair is also optionally available with floor-protecting felt glides.

Accessories

FEATURES

- hygienic and easy to clean
- ergonomic thanks to cantilever frame
- high stability due to cross bracing and foot caps
- Seat shell available in fresh colors
- Practical and easy to transport thanks to handle holes
