

## WALL MOUNTED 2 PYLON SYSTEM FOR DISPLAYS 75" OR 86"

ELECTRICAL HEIGHT ADJUSTABLE, 70 CM STROKE, WITH WIDEBOARD SIDE WINGS

### PRODUCT

This electrically height-adjustable pylon-system with 2 whiteboard side wings for 75" oder 86" is compatible with all touch screen displays available on the market, from 75" to 86" screens. The adjustable pylon-system consists of two aluminum profiles mounted on the wall and floor, in which the motor is concealed.

The two side wings allows you to have both a digital touch panel and a traditional writing surface. The 2 double-sided pivoting whiteboard surfaces can be written on with whiteboard markers are dry wipeable and come with an magnetic surface.

By using the two button remote attached to the system, you can adjust the display to the desired working height . This ensures that every user can work and present at their ergonomically best height.

Advantage of the electrical height adjustment: It increases the lifespan of the display, because controlled movement protects the technology.
